

DrKagiso Batka-Makwinja

I am a well-suited candidate for this position to motivate, support and encourage others because I am dedicated, enthusiastic, knowledgeable and compassionate. I am a third year registrar in Paediatric surgery at the University of Pretoria. I have served in the executive committee of the South African Paediatric Surgical Trainees Association (SAPSTA) as vice-president since 2015, which was my first year of study. Having been commended for having excellent people skills, I do have undeniable passion for working with people, am undoubtedly confident and well-spoken. I come from a multi-racial, multi-cultural background and this helps me to be versatile and an impeccable representative. We also hope to create a stronger liaison between Paediatric surgery trainees and all other surgical trainees.
