

THE SOUTH AFRICAN SOCIETY FOR SURGERY OF THE HAND BASIC MICROSURGERY COURSE

For surgeons by surgeons

Fri 18 – Sun 20 October 2024

Held at Zeiss Head Office, 363 Oak Avenue, Ferndale, Johannesburg

Be taught and supervised by surgeons in an intensive **3 day** basic microsurgery course at the state of the art **Zeiss Academy**. Double header microscopes allow for one on one teaching on both synthetic models and “blue blood chicken thigh”, offering realistic simulation.

COURSE OBJECTIVE: The course is intended for **qualified and trainee surgeons** who wish to acquire new skills or improve their existing skills in microsurgical techniques. Become comfortable with an operating microscope, microsurgical instrumentation and basic microsurgical skills.

TRAINING:

- Instrument and Tissue Handling
- Knot Tying
- Vessel Anastomosis
- Nerve Coaptation

The faculty includes experienced micro surgeon educators from around South Africa
